

## Office Development Linwood Town Centre

by Manson

Our brief was to create new office headquarters for Linwood Housing Association that formed part of the mixed-use scheme in Linwood Town Centre. The building was designed as a three storey building located adjacent to the Council Library, Community facility and the retail portion of the project.

Public realm and pedestrianised areas surrounded the office building ensuring there was adequate linkage within the remaining components of the surrounding town centre.

Our aim was to create both a dynamic frontage for the office building as well as a well-designed internal cellular office solution. The special relationships integrating public visits and staff communication were vital to the success of the building.

### Details

Location: Linwood Town Centre

Client: Tesco Stores Ltd

Architect: Manson

Engineer: Goodson Associates

Area: TBC

Value:

Completed: 2012
